

Edit an Emotion Sensor®

<http://help.emojot.com/help/2019/09/25/edit-a-sensor/>

To edit a sensor, click on **Edit sensor** icon on sensor widget on **My sensors** page.

Sensor name, sensor title, type, short URL, questions, emotive themes, etc. can be changed from this.

Once the editions are done, **Update** the sensor.

When the sensor contains user emotes, it can be either **archived** or **replaced**.

Update conflicted with existing survey ✕

The old survey questions are conflicting with new questions. This could happen due to,

- Removing a question from a survey which has emotes
- Changing the emote theme of a survey question which has emotes

Select your preference to continue.

1 Archive old survey **2** Replace old survey

Existing emotes data will be saved in a separate archived survey
